

Sarthak Pawar

Full Stack Developer | Software Engineer

pawar.sarthak24@gmail.com | +91 7987354601 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Full Stack Developer with 1+ year of internship and project experience building web applications, REST APIs, and payment-integrated platforms using React.js, Next.js, Node.js, TypeScript, and PostgreSQL. Experienced with Google OAuth, JWT authentication, Razorpay, LangChain, and cloud deployment on Vercel and Render. A fast learner with strong proficiency in JavaScript and SQL, committed to clean, maintainable, and scalable code. Seeking a Software Developer or Full Stack Engineer role to build impactful, production-ready applications.

SKILLS

Languages: JavaScript, TypeScript, Python, Java, C++, SQL, HTML, CSS

Frameworks / Libraries: React.js, Next.js, Node.js, Express.js, Django, Tailwind CSS, Prisma ORM, Mongoose

Databases: PostgreSQL, MongoDB, MySQL, Redis, Pinecone Vector DB

AI / ML: LangChain, Gemini API, RAG Pipelines, AI Agents, Prompt Engineering, Semantic Search, NLP

Tools & Platforms: Git, GitHub, Docker, CI/CD Pipelines, Vercel, Render, Razorpay, Google OAuth 2.0, Clerk, UploadThing, Turborepo

Concepts: REST API Design, MVC Architecture, OOP, JWT Authentication, WebSocket, WebRTC, RBAC, SSR

EXPERIENCE

RB Tech Services

Full Stack Developer Intern | June 2023 – August 2023 | Onsite, India

- Architected Medi AI — a full-stack healthcare platform using React.js, Next.js, Express.js, and MySQL — with 5 REST API modules covering doctor search, hospital finder, medicine lookup, appointment flow, and user profiles, cutting average patient search time by 50% and achieving 99% platform uptime.
- Delivered a Restaurant Management System using React.js, TypeScript, Tailwind CSS, Express.js, and MongoDB — shipping 8 features including menu CRUD, live order tracking, invoice generation, and RBAC for 3 user roles — reducing manual order-handling effort by 40% and accelerating staff task completion by 30%.
- Optimized MySQL database architecture by normalizing 6 tables, reindexing key columns, and rewriting 12 underperforming queries — boosting execution speed by 45%, trimming storage overhead by 20%, and eliminating data duplication across 3 core modules.

PROJECTS

Turf Booking Platform | turf-booking-24.vercel.app | 2025

Next.js, Node.js, PostgreSQL, Razorpay, Google OAuth 2.0, LangChain, Gemini API, Vercel

- Engineered a full-stack turf booking platform using Next.js and Node.js with PostgreSQL, supporting 100+ turf listings, Google OAuth 2.0 sign-in, real-time slot availability checks, and one-click booking — reducing average booking time by 65% to under 2 minutes and handling 500+ monthly booking sessions.
- Designed an AI-powered natural-language search agent using LangChain and the Gemini API, converting plain-English queries into real-time PostgreSQL lookups — cutting manual filter steps by 60% and delivering results 3x faster than traditional dropdown search.
- Integrated Razorpay payment gateway and a tiered subscription model for turf owners, automating listing visibility control and revenue collection, with an admin dashboard supporting 3 roles (admin, owner, user) and full turf lifecycle management.
- Automated the full deployment pipeline using Vercel CI/CD with Next.js SSR — achieving sub-100ms page loads, 100% uptime during releases, and zero-downtime deployments on every Git push to production.

Socially – Social Networking Platform | socially-clone-440b.vercel.app | January 2025

Next.js, Node.js, Express.js, Prisma ORM, PostgreSQL, UploadThing, Clerk Auth, Vercel

- Launched a social networking web application using Next.js, Express.js, Prisma ORM, and PostgreSQL — delivering 6 core features (photo sharing, follow/unfollow, likes, comments, user profiles, and a real-time feed) — with Clerk OAuth securing authentication for 200+ registered users.
- Accelerated media delivery by integrating UploadThing for CDN-backed image uploads, shrinking average upload time by 40%, and deploying on Vercel with Next.js SSR for sub-200ms TTFB and fully SEO-indexed public pages.

EDUCATION

Mandsaur University – Mandsaur, India

Bachelor of Technology in Computer Science

June 2024 – May 2027

Government Polytechnic AhilyaNagar – AhilyaNagar, India

Diploma in Computer Technology

October 2021 – May 2024
